

Jalousie Window Custom Ordering Instructions

Our jalousie windows are available in white or bronze and are available in the stock sizes listed on Tafco.com and can be ordered on Home Depot's web site. For custom sized windows, contact your local Home Depot store. We can assist the Home Depot associates in getting your quote.

- Exact width comes in 2" even increments from 12" to 40". This is tip to tip which includes a 1/2" side flange (so 1" total)
- Exact height varies based on the chart below which is also a tip to tip measurement that includes a 1/2" top & bottom flange (so 1" total)
- Because of the design of a jalousie window custom heights are not available
- **16 slats through 25 are made with two t-handle operators per window**

Window Sizing Options

NUMBER OF GLASS PANES	TIP TO TIP WINDOW HEIGHT

19	69-7/8
20	73-7/8
21	76-7/8
22	80-7/8
23	83-7/8
24	87-3/8
25	90-7/8

Window Size Example

A window size for illustration purposes. The window is to be:

38" x 34-7/8"

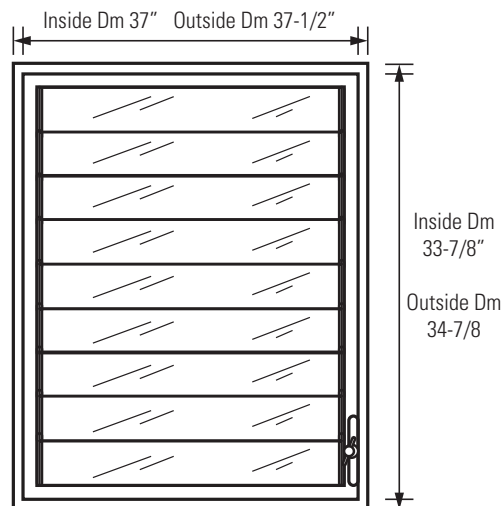

This would be a tip to tip measurement including the face frame.

The interior dimension of the window measures:

37" x 33-7/8"

the rough opening would be in between these 2 measurements or approximately

37-1/2" x 34-3/8"

With this type of special ordering, it is highly recommended to wait until you receive your finished units to rough in your opening.
