

PRODUCT FEATURES

Dragon Skin Heavy-Duty 10 MIL tarps are made from a tightly woven (14X14/sq. inch) and coated polyethylene material. These tarps are tear / UV resistant and are designed to protect against moisture with repeated use. Our tarps feature heat sealed reinforced seams, ¼" twisted poly rope and polycarbonate reinforced rust resistant aluminum grommets for added strength. Dragon Skin Heavy-Duty tarps provide UV protection: 100% sun shading while the silver coating reflects UV rays. Our tarps are ideal for construction jobsites, roofing, painting, leaf/debris cleanup, camping, picnicking, hunting, canopy and tent fly. Dragon Skin tarps are the perfect choice for covering equipment, outdoor furniture, wood piles, or almost anything that needs protection from the weather elements.

- Reversible: Brown / Silver
- TRUE FINISH SIZING: NO SHRINK & NO CUTBACKS
- Extra Heavy-Duty: 10-MIL thickness for repeated and extended all-weather use
- Tight Weave Pattern: 14X14/sq. inch weave resists UV damage, water, tears, mold and mildew
- Superior UV Protection: 100% shading from light and silver coating reflects UV rays
- Heat sealed triple reinforced seams with ¼-Inch twisted poly twine rope
- Strong rust resistant aluminum grommets spaced every 18-Inches and reinforced with polycarbonate plastic fasteners for tie-down strength
- Full injection molded corners provide reinforcement for added strength, durability & protection
- Can be used as a drop cloth for all types of floor protection
- Comes in handy as an awning tent top or even an umbrella covering for sun shade or rain
- Great for outdoor activities
