

PRODUCT FEATURES

TAFCO Heavy-Duty Super Corner 10 MIL tarps are made from a tightly woven (14X14/sq. inch) and coated polyethylene material. These tarps use patented injection molded sure-grip corners and spacers that allow you to secure the tarp without puncturing that fabric. This revolutionary feature combined with our heat sealed reinforced seams, ¼" twisted poly twine rope and polycarbonate reinforced rust resistant aluminum grommets add maximum durability and strength. TAFCO Heavy-Duty tarps also provide UV protection: 100% sun shading while the silver coating reflects harmful UV rays. Our tarps are ideal for construction jobsites, roofing, painting, leaf/debris cleanup, camping, picnicking, hunting, canopy and tent fly. TAFCO tarps are the perfect choice for covering equipment, outdoor furniture, wood piles, or almost anything that needs protection from the weather elements.

- Reversible: 2-tone Brown/Silver
- Patented: "Sure-Grip" corners & spacers provide maximum strength, durability & protection
- TRUE FINISH SIZING: NO SHRINK & NO CUTBACKS
- Extra Heavy-Duty: 10-MIL thickness for repeated and extended all-weather use
- Tight Weave Pattern: 14X14/sq. inch weave resists UV damage, water, tears, mold and mildew
- Superior UV Protection: 100% shading from light and silver coating reflects UV rays
- Heat sealed triple reinforced seams with ¼-Inch twisted poly twine rope
- Strong rust resistant aluminum grommets spaced every 18-Inches and reinforced with polycarbonate plastic fasteners for tie-down strength
- Can be used as a drop cloth for all types of floor protection
- Comes in handy as an awning tent top or even an umbrella covering for sun shade or rain
- Great for outdoor activities
